

## Keeping Specialty Medications in our Community Pharmacies

### CSPN News Release

Dear CSPN Member,

CSPN's Limited Distribution Drug Fulfillment Program officially kicks off on Monday June 6<sup>th</sup> 2011!!!

Our members will be able expand their specialty business with the ability to promote the fact that we now have a fulfillment program for limited distributed drugs. CSPN can now provide all the services offered by the larger specialty mail order providers. The program will enhance our ability to market our network by adding the following capabilities: a limited distributed drug fulfillment program, 24/7 call center with clinical support, and patient access in every state.

It remains CSPN's goal to reach TIER 1 pharmacy status with manufacturers and gain access for all members to these limited distributed drugs.

Program Educational Webinars and Conference Calls will take place on May 25<sup>th</sup>, 26<sup>th</sup> and June 2<sup>nd</sup>.

All members should have received their marketing materials around this program via fax and email. If you still need a copy of this information, please contact Stefanie Peyton at 866.907.CSPN or [speyton@cspnrx.com](mailto:speyton@cspnrx.com).
