

Keeping Specialty Medications in our Community Pharmacies

CSPN Announces the Launching of its Preferred Vendor Programs

Dear Valued CSPN Member,

CSPN is excited to announce the introduction of CSPN's "Preferred Vendor Programs" (PVP's).

Over the next few months, CSPN will announce programs that we have negotiated with premiere vendors in our industry to drive additional value in your relationship with CSPN.

We will allow only two vendors in each category who have demonstrated their support of our network and are willing to provide our members discounts not available individually.

As we announce these exciting programs, details will be provided via email and fax from the CSPN Corporate Office. CSPN encourages its members to take full advantage of the Preferred Vendor Programs as they are announced.

These preferred vendors goals align directly with CSPN's mission to deliver a comprehensive care model that will have a positive impact on our patient's lives. CSPN services are built on local trusted relationships with our patients, physicians, and healthcare providers. CSPN offers a unique cost-savings alternative for managed care organizations and payors.

For more information about this exclusive opportunity to CSPN members, please contact Stefanie Peyton at 866.907.CSPN or speyton@cspnrx.com.

Details on these programs to follow.
